## STRIKE A FAILURE IN ST. PETERSBURG

**Railway Employees Refuse to Go Out and City is Quiet.**

Between Sixty and Seventy Thousand Obeyed Order to Quit Work in Russian Capital.

### WORKMEN HURT IN STRUGGLE.

St. Petersburg, Aug. 6.—It is estimated this morning that only 60,000 of the quarter of a million workmen in the city obeyed the summons for a general strike. The authorities are doing everything in their power to break the strike. The perfect notified the workmen on the tramway systems that they will be heavily fined for striking. At Apraksin market the strike agitators were badly beaten by anti-strikers who refused to quit work. Twenty workmen were injured in clashes with the police yesterday. The city is quiet this morning. Three newspapers appeared.

### Liberals Hesitate at War.

St. Petersburg, August 6.—Unless dispatches from the interior in a few hours entirely change the situation, the general strike promises to prove a complete failure. Although Liberals strongly opposed the course of the government they shrink from precipitating a revolution and the horrors of civil war into which the country would be plunged, if the plans of the strike leaders are successful.

### Chief of Police Resigns.

Helsingfors, August 6.—Chief of Police Malm and his two adjutants have resigned as a consequence to the recent disorders. Major Pergh, a Finlander from the Russian army, was appointed to succeed Malm.

### Strike Fails in Purpose.

St. Petersburg August 6.—The fate of the general strike, which, although it has effected about 70,000 men here, has met with only slight response in other sections and probably will be decided today by adverse public opinion.

Lack of union among the leaders of the proletarian organizations is playing against the success of the movement.

The railroad men upon whom the success of the entire movement depends, are still working full time.

### General Strike Spreading.

St. Petersburg, August 6.—Strikers have torn up the Ironov railway. The general strike is spreading to Moscow and Rostoff.

### To Finance Revolution.

London, Aug. 6.—Reynolds' Newspaper, in a sensational article this morning, says that the European financiers heavily interested in Russian securities are offering to furnish money with which to place the Russian revolutionary movement upon a business footing.

According to the newspaper's source of information, these bankers with trustworthy information at hand, gleaned by their agents in all the principal towns of Russia, have reached the belief that the regime of the czar is all but ended and that the sooner the end comes the better it will be for Russia.

A cogent reason which is said to actuate the financiers in their advance to the revolutionists is, according to Reynolds, the fear that the revolutionists when they come into power will be likely to repudiate the Russian obligations contracted by the czar. The bankers want to become friends of the revolutionists now.

### BOOM CIGARET FOR "JACKIES."

Though Crusade is Active in England, Admiralty Favors It.

London, August 6.—The anti-cigarette crusade never was more active in England than at present. The outcome is projected legislation regarding the juvenile smokers. It seems curious therefore, that the British admiralty should select this time to popularize cigarette smoking in the navy. Forty years the popularity of the pipe and sailors' powerful plug tobacco has been decreasing. The admiralty, recognizing this, has determined to issue fine cut tobacco, suitable for cigarette rolling, at the low price of 1 shilling a pound to sailors, who always receive tobacco duty free.

By the consent of the people of Paducah, The Sun has the largest circulation in the city and county. The average for July was 4132 a day.

### Asbury Spicer's Assaults.

Jackson, Ky., August 6.—Word reached here this afternoon that Captain Mullikin's bloodhound, Nick Carter, which was placed on the supposed trail of the assailants of Asbury Spicer early this morning and followed the scent for a distance of about three miles to the home of Jacob Terry, a merchant on the Middle Fork of the Kentucky river, rushed into the house and reared upon a bed then seemed to quit the chase. Upon inquiry from Terry it was learned that two men, Bob Terry and Miles Caudill, had slept in that bed the night before.

### To Be Held at Buenos Ayers.

Rio De Janeiro, August 6.—It is virtually decided that the next meeting of the Pan-American congress will be held at Buenos Ayers in 1910. This would involve a change in the arrangements for the observance of the hundredth anniversary of Argentine's independence.

## NO CERTIFICATE

SO ST. LOUIS COUPLE ARE SINGLE IN EYES OF CHURCH.

Judge Lightfoot Issues License and Performs Ceremony—Rabbi Demands Proof.

Because they had no certificate to show they were married by a civil magistrate in Paducah, Gus Ketcher and Fannie Singer, of St. Louis, who under the statutes are man and wife, were denied the privilege of being joined according to the rites of the Jewish church yesterday. Morris Klein, of 132 Broadway, a shoe dealer, is a friend of the groom and he has been requested to secure the necessary papers at the court house. The couple were married at the court house July 22 by Judge Lightfoot, who also issued the marriage license. Both the clerk and deputy were away at the time, thus placing the duty of issuing license on the county judge. He did so and then married the couple, but no record has been made of it. Mr. Klein will secure the necessary certificate this afternoon and mail it to the anxious couple.

### Chicago Bank Closes.

Chicago, Aug. 6.—The Milwaukee Avenue State bank has closed its doors.

## TERRIBLE HEAT

CAUSES MANY DEATHS IN NEW YORK CITY.

Scores Are Overcome and Last Night Was the Worst Experience of Season.

New York City, Aug. 6.—The city and vicinity is boiling and stewing in a torrid wave. Many are dead from heat. Scores are prostrated. Great distress and suffering is evident among the poor. Last night was the severest experienced during the present heated term. It will add heavily, physicians declare, to the mortality among infants and aged people.

### Two Die in St. Louis.

St. Louis, Aug. 6.—At 9 o'clock the temperature reached 86.—The weather bureau estimated that 90 will be passed during the day. Two deaths and many prostrations are reported.

### A. P. A. Trouble Revived.

Nashville, Tenn., Aug. 6.—Burr Thompson, shot last night by John Yeaman, died within an hour, and Yeaman was hustled into jail for fear of mob violence. Today his brother, O. N. Yeaman, was arrested as an accessory. It is claimed he knocked Thompson down before John Yeaman shot him. The Tragedy has revived the old antagonism between the A. P. A. faction and the Irish, and there is danger, in the state of public excitement that other tragedies may follow. Yeaman is to have a preliminary hearing in the morning.

## HORSE SHOW WEEK WILL BE GALA TIME

Retail Merchants' Association to Aid.

Rebating to Out-of-Town Customers Continued With Prospect of Success.

### OTHERS ASKED TO JOIN THEM

The Retail Merchants' association has made arrangements to continue refunding the railroad fare to out-of-town purchasers, and has appointed a committee to solicit funds from merchants outside of the association, who are benefited by the advertising the association does. There are a number of establishments, such as the drug stores, soda water establishments, restaurants, hotels and various lines of business, which are greatly benefited by the advertising and the association.

"We have done well with the scheme," said a member of the association today. "The first season, which was last fall, it was a new thing to us, and not properly conducted, but the spring season was a success and we feel, with the knowledge we have gained, that this fall it will prove a fine thing for every member of the association and for the city."

We should like to raise a fund of \$1,500 to \$2,000 and think we can, and with that to work on we know we shall obtain good results. We feel that there are a number of lines of business outside of the association that are nearly as much benefited as we, and we are going to ask them to come in with us with a donation. Some have already volunteered to do so, and we feel confident nearly every one will.

### The Horse Show.

"The Horse Show will give us an opportunity to offer entertainment for out visitors this fall, and we intend to help the promoters of it all we can."

President Robert B. Phillips, of the Horse Show association, will call a meeting of the chairmen of the principal committees of the association to outline the work for the different committees some time in the near future. The date for the show is not so far off now, and active work should be started, he thinks, at once.

"We had a successful show last fall," Mr. Phillips said today, "and we feel confident that the one this year will prove even more so. It was a good thing for Paducah, and its merchants, and a good thing for the stock industry in Western Kentucky, as a surprisingly large number of entries were entered in every contest."

"This year we are receiving a good many of inquiries from stock raisers, and from all indications we shall have a fine program."

"It is fitting that Paducah should take an interest in the event as the benefits from the association are inestimable. Other West Kentucky towns have seen and appreciated them, and we shall have horse shows in many of the neighboring towns this fall."

The dates for the Paducah association meet are October 4, 5 and 6.

### BLACKLIST CASES.

Will Be Prosecuted Against the L. & N. Railroad.

Washington, August 6.—Instructions were sent by department justice to the district attorneys of Kentucky, Tennessee and Alabama, to bring additional suits in each of those states against the Louisville & Nashville railroad for alleged violations of the so-called arbitration act of 1898, concerning carriers engaged in interstate commerce and their employees. The cases grow out of the discharge of telegraph operators, members of the order of Railway Telegraphers.

### Accidentally Shoots Himself.

Hickman, Ky., Aug. 6.—John Knoer, a prominent citizen accidentally shot himself with a shotgun at noon. He was dismembered and his death is momentarily expected.

### Kentucky Postmasters.

Washington, August 6.—The following Kentucky postmasters were appointed today: Cadiz, G. P. Thomas; Hazel, Calloway county, Pearl Mason.

## THREE HUNDRED ITALIANS DROWN

Emigrant Ship Sinks and Captain Shoots Himself.

Terrible Scenes as Crazy Men Attack Crew and Women With Knives.

### SIRIO STRIKES A ROCKY REEF

Cartagena, Spain, Aug. 6.—A terrible marine disaster occurred Saturday evening off Cape Palos. The Italian steamship Sirio, from Genoa for Barcelona, Cadiz, Montevideo and Buenos Ayres, with about 800 persons on board was wrecked off Hormigas island.

Three hundred immigrants, mostly Italians and Spaniards, were drowned. The captain of the steamer committed suicide.

The bishop of San Pedro was lost and it is reported another bishop is among the missing.

The remainder of the passengers and officers and crew got away in the ships boats or were rescued by means of boats sent to them from the shore.

A number of fishermen who made attempts at rescue were drowned.

Those rescued from the vessel are now at Cape Palos in a pitiable condition, being without food or clothing.

The Sirio struck a rocky reef known as Bajos Hormigas and sank soon after, stern first. Hormigas island lies about two and a half miles to the eastward of Cape Palos.

The Sirio was owned by the Navigazione Italiana, of Genoa.

Before he committed suicide the captain declared that he had 654 passengers on board and that her crew numbered 127 men. The Sirio had 570 passengers on leaving Genoa, August 2, but additional Spanish passengers were taken on board at Barcelona, where the vessel touched a few hours before the disaster.

The disaster occurred at 5 o'clock. The steamer was treading the difficult passage through the Hormigas group, where the Bajos Hormigas reef is a continual menace to navigation.

### Wild Panic Ensued.

The vessel began to settle rapidly immediately she had struck and a terrible scene of confusion and panic ensued on board.

Fishermen along the coast fought to render every assistance in their power and sent out boats which brought many survivors to shore.

Most of the officers and crew of the Sirio are among the saved.

The survivors have gone into camp on the main square of the town at Cape Palos.

The captain of the Sirio just before he killed himself attributed the wreck to his own imprudence.

### Women Forgotten.

London, Aug. 6.—The Madrid correspondent of the Daily Telegraph describes the Sirio disaster as one of the worst on record. Italian emigrants with knives in their hands and without regard for women or children, fought with the greatest brutality for possession of life buoys and boats.

Many were killed or wounded, including several members of the crew who were attacked by emigrants.

When the captain saw the vessel was lost and that the emigrants had captured the boat he committed suicide by shooting with a revolver.

Other officers then lost their heads and there was nobody to direct the work of rescue.

Eye witnesses give awful pictures of the brutal panic on board. For half an hour the emigrants were masters of the situation. They completely overcame the crew by the force of numbers, and this in spite of the efforts of the officers who tried to save the women and children first.

One report even states, the correspondent continues, that a group of emigrants approached one of the ships boats which already was full and which was about to be launched and dislodged people, killing several with knives.

### THIEVES FRIGHTENED AWAY.

Guest Secures Revolver but They Do Not Return.

Thieves visited the residence of Mrs. Emily Morrow, on Kentucky avenue between Fifth and Sixth streets this morning at an early hour but did not succeed in entering. A guest heard them and secured his pistol to wait their return but they did not come back.

Unsettled weather with occasional showers tonight or Tuesday. The highest temperature reached yesterday was 94 and the lowest today was 73.

### Highwaymen Caught.

El Reno, Okla., August 6.—Two highwaymen held up and robbed Samuel Roland and Miss Corinne Jones, of Dallas, Tex., at a railroad station near El Reno today, and assaulted the woman. They were captured by a posse after a pursuit in which an unknown man was killed. The prisoners were positively identified by Miss Jones and Roland. The dead man has not been identified.

The men under arrest were put in jail, but there is much talk of mob violence.

### Bryan vs. Taft.

Kansas City, Mo., Aug. 6.—"I confidently believe that Roosevelt will not again be a candidate for president of the United States, but I think, though not speaking as one with authority, that Roosevelt is pushing forward Taft as his successor." This statement was made yesterday by David J. Brewer, associate justice of the United States supreme court.

## OVER QUARTER

PROBABLY FATAL QUARREL IN MURRAY.

Jim Nix, Colored, Is Dying, and Edward Gardner Is Under Arrest—Crap Game.

Jim Nix, a 35-year-old colored man, is probably dying at Murray and Ed Gardner, a 21-year-old colored man, is in jail charged with malicious shooting with intent to kill, the result of a crap game in which a quarter was involved, Sunday morning at 8 o'clock.

Nix passed and Gardner is alleged to have gotten mad and grabbed up a quarter. A quarrel resulted and Gardner is charged, pulled his pistol, a .33 caliber weapon, and shot once. The ball struck Nix in the right breast and was removed from under the right shoulder blade. The game was being played just outside the city limits, southeast of Murray, and Gardner took to the woods. After a lively chase he was captured by Dexter officers near Dexter and returned to Murray.

### American Machinists Return.

Fort Worth, Tex., Aug. 6.—Fifty American machinists with their families who arrived at El Paso from Mexico, say they were forced from their positions by striking Mexicans.

## HEAD HUNTERS

AMBUSH AMERICAN TROOPS AND KILL MAJOR.

Pulajanes, Getting Active, Surprise Village and Kill Several People.

Manila, Aug. 6.—Renewed activity is being shown by the Pulajanes and head hunters in Leyte and Cayan islands. Sunday morning 300 Pulajanes surprised the police of Abulog, killing an ex-president of the village two constabulary men and three policemen. Major Crawford in command of the United States troops on the island was ambushed by a party of head hunters, Major Crawford, Captain Knauber and several soldiers were wounded by the arrows of the savages.

### CAIRO'S POPULATION

Estimated Approximately at 20,000 by Schools.

Cairo, Aug. 6.—Actual population of Cairo is 18,051, that of Future City 992, making the total population of the city practically 20,000. This is shown by the census completed yesterday by T. C. Clendenen, superintendent of the Cairo schools.

### Oldest Duke Dies.

London, August 4.—Abe Duke of Rutland, the oldest living duke, died today. He had a long political career. He was author of several books and pamphlets.

## PARK BOND ISSUE BEFORE COUNCIL

Lower Board Will Consider Measure Tonight.

Extension of Street Railway System Out Nineteenth Street Will Come Up.

### SALOON LICENSES ARE SOUGHT

Park bonds will be one of the important topics of consideration before the board of councilmen at the meeting tonight, when a measure, providing for an election on the question of issuing \$100,000 in municipal bonds for the purchase and improvement of a system of public parks, will be introduced.

There seems to be no doubt as to the action of the general council in calling the election, as it is understood that both the administration and the council favor the proposition. Business men, when they understand that the issue does not contemplate an increase in the rate for park purposes above that established by the charter, are unanimously in favor of the issue, and the general council will afford the people an opportunity to vote on the question.

It is proposed to hold the bond election on the regular November election day, thus incurring no additional expense for the purpose. This easily can be done and the law complied with, if the general council takes immediate action.

It is probable that the franchise ordinance for the Nineteenth street extension of the street railway company's lines will be ready for introduction in the lower board tonight. The new line will reach Werten's addition, which is now without transportation facilities.

It is understood that applications will be made for licenses to open saloons in locations closed up by the refusal of licenses to the former proprietors. Theodore Peters will ask to open a saloon at 1040 Broadway and Oscar Denker will ask for one to open a saloon at 1043 Kentucky avenue. Bud Quarles' old stand near the Union station also has an applicant. Two of the applicants were refused licenses in June.

### UNCLE SHELBY CULLOM

Defeats Governor Yates in Primary Election.

Chicago, August 6.—After a red-hot campaign for indorsement by the popular vote at the first primary election at which the people of Illinois had an opportunity to show by ballot their preference for candidates, from United States senators and congressmen to county officials, the vote shows a lamentable lack of interest, the total being less than one-third of the full registration. Returns from the city on United States senator give Senator Shelby M. Cullom a lead of about 17,000 over former Governor Richard Yates, while the indications from the state at large leave no room to doubt that Senator Cullom has received the indorsement of a large majority of the popular vote.

### FALL ON STAIRS

Renders Venerable Woman Unconscious and Breaks Finger.

While coming down the steps at her home, Mrs. Jim Mulv'n, of Eleventh and Jefferson streets, tripped and fell, the fall rendering her unconscious and breaking one finger on her left hand. The accident occurred Sunday night at 9 o'clock. Mrs. Mulv'n is 79 years old. Dr. J. D. Robertson was called and dressed the injuries.

### MOB ATTACKS AMERICAN.

He Shoots Leader and Rural Guards Kill Several.

Torrion, Mexico, Aug. 6.—The Mexican Central railway trainmen arrived here from the south and report that striking Mexican shopmen attacked the American master mechanic. Their leader was shot by the master mechanic. A force of rural guards arrived and fired on the mob, killing ten.

### Landed Without Accident.

Noank, Conn., Aug. 6.—Dr. Julian Thomas and Roy Knabeshue, who started from New York last night in a balloon to break the American record, landed here early this morning without accident.

## DOUBLE HEADER WON BY INDIANS

### Wiley Platt Shuts Out Visitors in First Game.

Second Contest Not So Easy but the  
Invincible Again Demonstrated  
His Control.

### NEVER PLAYED BETTER BALL.

#### Team Standing.

#### Yesterday's Results.

Paducah, 6-4; Mattoon, 1-3.  
Vincennes, 5-7; Danville, 1-5.  
Jacksonville, 5; Cairo, 0.

#### Today's Schedule.

Jacksonville at Paducah.  
Mattoon at Cairo.  
Vincennes at Danville.

(Wiley Platt, the southpaw, pitched a double header for Paducah yesterday.)

Platt was in good form.

First game: Paducah, 6; Mattoon, 1.  
Second game: Paducah, 4; Mattoon, 3.

This is the story of Sunday's games, and the fans are jubilant over the result. Platt infused energy and the team seemed to take on new life. Everybody played and the way the boys handled themselves would have done credit to a big league team.

Lloyd did star fielding. Asher did some hard driving. In fact, the entire team hit and ran bases as the Indians never did before.

The crowd was large the fact that Wiley was in the box for the Indians proving a good drawing card. He was the same old Wiley and never once showed that he was doing anything out of the ordinary. He had the Hostlers at his mercy from start to finish, although in the second game they drove the Indians close in shore.

The first game was uninteresting except for the fact that Platt allowed so few hits.

The second game was close, and although Platt did not weaken, a few bunched hits netted two runs in the fifth inning.

Platt overcame the hitting streak and it was "23" for the Hostlers in the ninth.

There was a great deal of rag chewing on the part of the Hostlers but no one was benched.

Langdon got mad in the eighth inning and quit, and Johnson took his place behind the bat.

#### Dope.

Grover Land is popular in Toledo. He is hitting something like a 300 clip now and there is talk of some bigger league team drafting him. Anyway, there have been several spotters about looking the "Big Man" over. The Toledo papers published Land's full size picture and a lot of dope about him on July 5. He played in the double header and was a star with the stick.

A double-header is scheduled for tomorrow as there will be no game on August 8, the colored people having leased the park for that day. The first game will be called at 2:30 tomorrow.

## FLOWER THIEF STRIPS THE YARD

### Somebody Beggars Lawn of Mrs. John Rock.

North Sixth Street Resident Visited By  
Miscreant, Who Destroys  
Plants.

### SAYS SHE KNOWS WHO DID IT.

Sneak thieves in Paducah have in their operations of the past several weeks stolen chickens, provisions, coal, watches, money and other valuables, one even going so far as to leave a notice on the front door of a south side dwelling to place money where it could be easily found as the thief intended returning the next night. But the most unique theft reported since the operations of sneaks began came this morning.

Mrs. John Rock, residing on North Sixth street between Jefferson and Monroe streets, lost every flower she had in her front yard last night. Some one entered her yard and cut all the blooms, roses and other class of flower. Mrs. Rock knows who did it and says she will prosecute the thief. She does not know why the flowers were stolen; what could be wanted with such an abundance and variety of flowers.

Mrs. Rock has one of the most handsome yards in the city and the variety of flowers she has raised has attracted much favorable comment from passersby.

#### NAVY'S WIRELESS PLANTS.

A Line of Service Along Atlantic Seaboard to Communicate.

As a result of extensive experiments made by the government in the last few months it has been decided to discontinue the wireless station at Atlantic Highlands and to move the station now at Montauk Point to Fire Island, in order to make a continuous line of service along the Atlantic seaboard to communicate with United States warships.

Experiments have demonstrated that sandy ground at Montauk Point is not adapted to the requirements of a wireless station. Messages can be sent more easily from the New York navy yard to Fire Island than to Montauk Point. It has also been positively determined that it is more difficult to send messages over land than over water, and for that reason it is often impossible to connect by wireless with the Montauk station from the navy yard because of the hills intervening.

It is now practically impossible to send messages from the navy yard to Newport, where the North Atlantic fleet is maneuvering. Messages can, however, be transmitted easily to Fire Island and thence to Newport. Even in the most adverse weather this connection has been made. The Montauk station was being established by a German company, but was not accepted by the government pending the outcome of experiments. The company will move the station to Fire Island.

The navy yard's wireless station is now equivalent to one horse power, and the power will be increased 15 times so that messages may be sent direct to the navy department in Washington. With these changes the

# The Spirit of The West in Advertising

*The West is the center of American commercial aggressiveness—the center of advertising activity. And the advertising center of the West is the Lord & Thomas Advertising Agency—the largest Advertising Agency in America.*

THE same spirit of western aggressiveness backed by facts—the Initiative—the Push—the Progress that has made Chicago, in sixty years, a city of two million people, that has made St. Louis one of the main centers of American commerce, that has made scores of other cities in the central West rank high among the world's manufacturing communities—this aggressiveness—the Western Spirit—has built up in Chicago the world's greatest advertising agency—Lord & Thomas.

We want to tell you about the aggressiveness of the West in Advertising—in Commercialism.

We want to tell you how we can infuse some of the Western Aggressiveness into your business.

We want to tell you how this spirit has brought to Lord & Thomas the aggressive advertising men of America—until, today, more \$5,000, \$10,000 and \$20,000-a-year brains are enrolled on our staff to prepare advertising campaigns than in any other three advertising organizations in the world combined.

We want to tell you about another result of the Western Idea—The Lord & Thomas Record of Results

—the Only Tangible Basis upon which to build an Advertising Campaign with the most reasonable assurance of success.

This agency alone has perpetuated their years of advertising experience by compiling and maintaining the Lord & Thomas Record of Results at a cost of over \$100,000.00.

The Lord & Thomas Record of Results is a tabulation of actual results—inquiries and sales known positively to have been produced by scores of classifications of selling plans and copy, advertising hundreds of different commodities in all good newspapers and other good media.

We are ready to focus the Spirit of The West—the Brains—the Record of Results and the Organization at our command upon Your Business.

One of our representatives is in your city looking after the interests of some of our present clients every few days. That is why we are advertising in this newspaper—to you—NOW.

A letter, signifying that you will grant us an interview in your office, will not obligate you in any way.

We are issuing a series of small books (cloth bound) covering advertising in all its phases, which we send free to interested advertisers.

## SOUTHERN STATES NEED MORE LABOR

### Raising Wages Does Not Accomplish Purpose.

Operatives for Mills Are Not Available and Many Factories Are Short-Handed.

### IMMIGRATION THE SOLUTION.

The secretary of the Draper company of Hopedale, Mass., who has recently been making a thorough study of business conditions in the south, in the monthly bulletin entitled "Cotton Chats" just issued by that company discusses the labor conditions in the south as follows:

"A recent two months' tour of the south afforded a confirmation of the views long held by the writer regarding the scarcity of cotton-mill labor. From Virginia to Alabama the mills were universally suffering from lack of help. Some were running full but they were not usually getting full product, as they could not insist on the highest possible efficiency with the operatives in such an independent frame of mind. Raising of wages had not improved the conditions, because of a general raising of wages in other lines of employment in the same vicinity. Higher wages, in fact, had really lessened the labor supply, because the help could earn enough to meet their ordinary needs without working full time. The competition of the mills for help also further limited the supply, as the help was shifting around from one mill to another, consuming considerable time in traveling. It is estimated that there was enough help on the cars and carts journeying from mill to mill to run all the idle spindles. Families were being offered transportation expense, and in some cases their debts at the local stores were also cancelled. It is hard to conceive of a more demoralizing state of affairs.

"As there seems to be no section of this country where a supply of unemployed, intelligent labor exists, the only solution of the problem is in carefully selecting immigrants. Large numbers of these are constantly arriving at the north, but very few of them are settling in the southern states. I heard of certain experiments in the line of inducing immigration but there seemed to be a distinct prejudice against the more naturally available race. People are easily acclimated to similar conditions. The climate of the south is not very different from that of northern Italy. The success of recent cotton mills in northern Italy shows that its people readily learn to operate cotton machinery, and those of us who have had some experience with colonies of these people who have settled in our northern states believe that they have the making of excellent citizens.

"The south has tremendous possibilities; in fact its present development is amazing to the onlooker. It has wonderful resources, but it needs workers to develop them. These workers should be selected without prejudice and made as comfortable as possible in their new surroundings."—Manufactory Record.

### An Anecdote of Paganini.

One night Paganini was going to the Paris opera house, where he was to astonish everyone by playing on one string. Being late, he took a cab, and when he arrived at his destination the cabby wanted ten francs. "What," he exclaimed, "You are crazy. I have only had you five minutes." "I know it is much," said the other, "but for you who make a fortune by playing on one string it must be ten francs." "Well," said Paganini handing him the right fare, "when you can make your cab go on one wheel come to me and I will give you ten francs."—La Caricaturiste.

### LOTS OF SMOKE.

But It Was Only Small Wooden Shed in Rear of Restaurant.

The No. 1 fire company was called to the Whitehead restaurant on Broadway between Second and Third streets at 4 o'clock this morning. A great volume of smoke was pouring from the rear of the building. When the firemen fought their way to the fire it was discovered to be a small 6 by 8 wood-shed. A barrel of lime stored in the shed, it is thought, started the blaze. The damage will amount to about \$10.

## DOG POLICEMAN

SAVES HUNDREDS OF DOLLARS WORTH OF COAL.

Dick Tolbert's Pet Chases Trespassers Out of Illinois Central Yards.

There will be a new name on the pay roll of the Paducah Illinois Central if the efforts of Special Policeman Dick Tolbert, who stands the day watch at the shops and in the yards, count for anything.

Tolbert has a dog—an ordinary looking canine. It appears to have some bird dog blood in it, but its nature is as far from that of a bird dog as can be imagined. It shows symptoms of pugnacity at the right time and Policeman Tolbert has made use of this trait.

"That dog is the best policeman for 'coal pickers' I ever saw," the policeman declared. "He can scent a coal picker for squares and has proven himself a terror among them. They congregate about coal trains after they have been side tracked, and pick up coal. The dog displays a great deal of sense and it required but little teaching to show him that coal pickers are trespassers and with no business carrying away company coal. He scents them every time he sees them and there are fewer coal pickers in the yards now than have been in some time."

Policeman Tolbert declares he will try to have his pet put on the pay roll for "rations" at least. This much he thinks, is coming to him.

## LITTLE HOPE

FOR RECOVERY OF CAPT. T. J. MOORE IS ENTERTAINED.

Underwent Operation for Appendicitis at Riverside Hospital Saturday.

Captain T. J. Moore, the well-known detective, is at Riverside hospital in a serious condition the result of an operation performed on him Saturday by Dr. Horace T. Rivers. He became ill Thursday of what was thought to be stomach trouble, but it developed to be appendicitis, and Saturday he was taken to Riverside hospital, where he was operated on. He was considered in a precarious condition Saturday night, but Sunday morning was able to rest a little. Last night he rested well and today is reported about the same. His physicians hope for the best, but say he has little chances of recovery. Captain Moore's family arrived in Paducah yesterday.

## "SKIDDOO" WORK

MEANING OF FIGURE IN ILLINOIS CENTRAL PAY-ROLL.

Twenty-three Extra Car Repairers Added to Force at Local Shops.

The wylie figure "23" holds no terrors for the Illinois Central and E. Goulioux, foreman of the freight car repairing shops. The railroad does not permit itself to be deterred in any of its endeavors, and this fact was demonstrated this morning when extra men were employed because of an increase in the repair work and the fact that all the rolling stock is being prepared for the fall rush.

Twenty-three extra car repairers were employed this morning. This figure was the exact number the road required for the work on hand. "It means 'skiddoo' for the extra amount of work on hand."

## K. OF C. SPECIAL IN FRISCO WRECK

Twenty People Injured, But None is Killed.

Coal Train Plunges Down Twenty Foot Embankment and Fireman is Killed.

### INTERURBAN CARS COLLIDE

St. Genevieve, Mo., August 6.—Twenty people were injured in a head-end collision between a passenger and a freight train on the Frisco road here Sunday. The engines were demolished and the tracks torn up for a considerable distance. The injured were taken to St. Louis on a special train.

The passenger train was a special from St. Louis bearing representatives of the Knights of Columbus. Cuts and bruises comprised the injuries, and none of the passengers were fatally hurt. The engine crews jumped and escaped.

It is claimed that the accident was due to the freight train running on the main track from a switch when it should have kept on the switch until the passenger train passed.

### Electric Cars Crash.

Worcester, Mass., August 6.—Two cars met in a head on collision in Worcester Sunday and 17 persons were injured. The most seriously injured are:

Campello Presto, Boston; Miss Bertha Royce, Worcester; Roland Johnson, Worcester.

### Down An Embankment.

Chicago, Ill., August 6.—Charles McGann, a fireman of Dixon, Ill., was killed and A. W. Lookman, an engineer of this city was severely injured today when part of a coal train on the Chicago and Northwestern railroad jumped the track and fell 20 feet down the embankment at Fortieth avenue and Kinzie street.

### Interurban Cars Crash.

Danville, Ill., August 6.—A heavily loaded car on the Danville Urban interurban line was overturned while rounding a sharp curve here today. Kelly Smoot, a constable, was killed and twenty passengers seriously injured. The accident was caused by the drawbar pulling out of the front truck.

### NEW BALLAST CARS.

Nearly One Hundred Latest Design Sent Here.

The Paducah district of the Illinois Central road is receiving a consignment of a little less than one hundred new Rogers ballast cars. Thirty-five have arrived to date, and the remainder will be here within the next two weeks. These cars are the biggest type of ballast cars made, and can be used for coal or ballast. The end gates can be lifted. The Illinois Central handles more coal and ballast from the Paducah district than from anywhere else south of the Ohio river, and every convenience is given the officials in the handling of business.

## HAPPY RESULTS

Have Made Many Paducah Residents Enthusiastic.

No wonder scores of Paducah citizens grow enthusiastic. It is enough to make anyone happy to find relief after years of suffering. Public statements like the following are but truthful representations of the daily work done in Paducah by Doan's Kidney Pills.

J. B. Roark, of 1027 South Fifth street, says: "I do not want it understood that Doan's Kidney Pills, procured at Alvey & List's drug-store, have radically cured me of attacks of backache, but I have been benefited incalculably by the treatment. I never expected to be free from kidney complaint, for I have suffered excruciatingly when the attacks were at their height. I could not stoop without pain; could not straighten after stooping without twinges and often was unable to turn in bed without actually groaning. Any remedy which gives the relief that Doan's Kidney Pills have given to me deserves the endorsement of the public."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, New York, sole agents for the United States.

### A Heavy Load to Carry.

Along with dyspepsia comes nervousness and general ill-health. Why? Because a disordered stomach does not permit the food to be properly digested, and its products assimilated by the system. The blood is charged with poisons which come from this disordered digestion, and in turn the nerves are not fed on good, red blood, and we see symptoms of nervousness, sleeplessness and general breakdown. It is not head work, nor over physical exertion that does it, but poor stomach work. With poor, thin blood the body is not protected against the attack of germs of grip, bronchitis and consumption. Fortify the body at once with Dr. Pierce's Golden Medical Discovery—a rare combination of native medicinal roots without a particle of alcohol or dangerous habit-forming drugs.

A little book of extracts from prominent medical authorities extolling every ingredient contained in Dr. Pierce's Golden Medical Discovery will be mailed free to any address on request by postal card or letter. Address Dr. R. V. Pierce, Buffalo, N. Y.

Many years of active practice convinced Dr. Pierce of the value of such native roots as medicinal agents and he went to great expense, both in time and in money, to perfect his own peculiar processes for rendering them both efficient and safe for tonic, alterative and rebuilding agents.

The enormous popularity of "Golden Medical Discovery" is due both to its scientific compounding and to the actual medicinal value of its ingredients. The publication of the names of the ingredients on the wrapper of every bottle sold, gives full assurance of its non-alcoholic character and removes all objection to the use of an unknown or secret remedy. It is not a patent medicine nor a secret one either. This fact puts it in a class all by itself, bearing as it does upon every bottle wrapper The Badge of Honesty, in the full list of its ingredients.

The "Golden Medical Discovery" cures, weak stomach, indigestion, or dyspepsia, torpid liver and biliousness, ulceration of stomach and bowels and all catarrhal affections no matter what parts or organs may be affected with it. Dr. Pierce's Pleasant Pellets are the original little liver pills, first put up 40 years ago. They regulate and invigorate stomach, liver and bowels. Much imitated but never equaled. Sugar-coated and easy to take as candy. One to three a dose.

### WAS CRUELLY TREATED.

Declare New York Physicians of the Syrian Leper.

New York, Aug. 6.—New York has no bars up against the pariah of West Virginia, Maryland and Pennsylvania, the leper who has been driven out, shunted, side-tracked, forbidden to cross New Jersey, and kept a prisoner in a freight car with no regular supply of food or water.

Dr. Doty, quarantine officer, after a meeting yesterday of the New York board of health, said: "As the two medical members of the board of health, Dr. Darlington and I are agreed that in New York leprosy is not a factor in state sanitation; we don't consider it at all further than to hold that in this country it is not a menace to the public. No, there is no prohibition against this poor outcast coming to New York."

"I think it most inhuman the way this man has been treated," declared Dr. Doty. "In what I say I speak also for Commissioner Darlington. What this leper wanted to do probably was to get to New York, where there is a large colony of his people, the Syrians, his hope being that his countrymen would help him to be transported to his home. There is something wrong about his wanting to reach North Brothers Island. No lepers are there."

"In New York leprosy is no factor. Leprosy is one of those disorders medical science knows very little about. Dealing with facts as we do, and not with theories, we have learned that though leprosy occurs in parts of the United States, there are no reported instances of one case having caused others. There is a popular fear of it. But the facts as they have been observed do not warrant the fear."

# ONE-FOURTH OFF ON ODD TROUSERS

Buy a Pair and Make an Old Suit New

THIS sale is probably awaited with more interest than any of our money-saving cut price sales, with the exception of the suit sale, as the economical dressers recognize the opportunities it affords of making a new suit out of an old one by the addition of a pair of odd trousers. The trousers usually wear out long before the coat to a suit seems worn, and the addition of a new pair renews the suit.

In this sale we have put all of our odd trousers, and there are just any number of most excellent bargains in the lot—the famous Paragon trousers being among them.

## Daily Thought.

"Do your best and then stop worrying."

The fire in an outhouse in the rear of Broadway between Second and Third streets, which, while of little consequence so far as actual loss was concerned, jeopardized the business section for a few minutes early this morning, points to a menace, which Paducah would do well to get rid of. It seems strange that business men, who take the precaution to keep their property well insured, will erect these little frame fire traps in the rear of their premises, simply to save a few dollars immediate expense. But such is human nature and we adopt laws to protect us against our own short-sightedness. From Fourth street to the river the rear of Broadway on both sides represents every opportunity for a disastrous fire. We have a fire limit ordinance, which will prevent the erection of any more of these shacks, but those now in existence should be torn down. They subserve no useful purpose, nor are they ornamental. Only the rats would be disturbed by their destruction.

The Commercial club has announced the Jackson's Purchase Immigration convention to meet in Paducah October 4-5. Secretary Coons has been in communication with representative citizens in neighboring counties, and has secured replies, which indicate enough interest in the project to warrant the club in proceeding with the arrangements. This promises to be one of the most important gatherings in Western Kentucky, and Paducah should extend to the visitors not only the utmost hospitality on that occasion, but should evince such enthusiasm in the immigration movement as to send the delegates home with irresistible arguments in favor of the plans adopted by the convention. It is time for everybody to study the immigration question in its application to local conditions.

A substantial bridge over Island creek to Mechanicsburg; the rehabilitation of the municipal lighting plant at a cost far below the original estimate; seven miles extension of the sewerage system; the adoption of measures enabling the people to acquire a park system at an early date; and a substantial reduction in the tax rate—all without a breath of scandal, or honest, adverse criticism—coupled with the closest scrutiny of every item of public business that came before the body, will form a pretty compactly built platform for the members of the present general council to stand on before the people at the next election. "Pointing with pride" is always a stronger argument at an election than "viewing with alarm."

The school board will meet tomorrow.

## POSITIVELY BRUTAL.

Mrs. Justwed: "I'm going to make a beautiful cake, dear. I do wish you could bring some one home with you to dinner."

Mr. Justwed: "All right, dear. I'll stop at the circus and invite the iron jawed man."

row night. There is still before the board the matter of electing teachers. The whole corps is being held up by a deadlock over one position. The citizens of Paducah, who are interested in the welfare of the children, are watching the board. It is time to "get together gentlemen." More momentous questions than the election of one school teacher have been settled harmoniously by more imposing bodies than the Paducah school board, and more difficult problems will confront public bodies in the future. We have no inclination to criticize any trustee, who stands up for what he considers the best interests of the schools; but just now we believe that the best interests of the schools will be subserved by the settlement of this disputed question one way or the other, and that without delay.

In cities the size of Paducah and larger, weeds in vacant lots are not allowed to stand very long and the owners of the property are made to have them cut down. They are unhealthy and the boards of health have so decided, says the Mayfield Messenger.

In one sense it is true, "weeds are not allowed to stand," just as men are not allowed to "tote pistols" in Kentucky. It is unlawful for weeds to stand and for men to "tote pistols," but weeds do stand and men do "tote pistols."

"Who will run against Bryan?" ask the journals, that make a business of "moulding public opinion" in a thousand fanciful forms on every question that remotely resembles an issue; and their insistent query is answered by the statesmen, who have to keep talking to avoid being forgotten. The election is two years away. Bryan may not run. But if he does, we feel safe in predicting that somebody will oppose him.

Asbury Spicer who testified against the Hargis-Callahan gang in the trials for the assassination of Attorney Marcum, was ambushed and fired upon in the mountains. If he remains in the mountain country and gets killed, the coroner's jury will be logically justified in returning a verdict of suicide.

The British admiralty has decided to encourage cigarette smoking in the navy. Perhaps, the admiralty intends to employ cigarettes in naval engagements much as lyddite shells were used in smoking out the enemy in South Africa.

## IN THE COURTS

**Not a Public Highway.**  
County Judge R. T. Lightfoot this morning decided that the county must accept a road dedication before it may be rightfully termed a public road, and with this decision dismissed the case of the commonwealth against Joe Trimble, of the county, charged with obstructing the public highway.

This case has been up for some time and was taken from the lower courts to the county court. Trimble was accused of closing a road with a fence. He showed that the road was built and maintained by himself for several years and that the county had never accepted the dedication.

**Bankruptcy Court.**  
This morning the first meeting of creditors in the bankrupt matter of William E. Killough, of Paducah, was held, but no creditors appeared and no trustee was appointed. Referee Bagby allowed the exemptions prayed for in the petition. He exempts a few household effects.

**Other Judgments.**  
Besides this one judgment County Judge R. T. Lightfoot took up about 140 other cases, civil actions on the quarterly court docket and disposed of a number of them. At least 50 judgments were rendered.

**A Correction.**  
In The Sun's court items Saturday mention was made of a suit against the Starks-Ulman company for \$3,130, which was an error. The suit is for \$313.

**Marriage Licenses.**  
Bud Wyatt, city, 21, to Lola Gray, city, 18. Ernest Nelms, city, 22, to Lee Jacobs, city, 21.

**Court Notes.**  
Miss Irene Fowler has accepted a position in the office of County Judge R. T. Lightfoot.

John Perdue, owning a farm four miles out on the Illinois Central, filed suit today against the Illinois Central road for \$600 damages. He claims that the road filled its roadbed in such a way as to cause bad drainage on his farm, and that water backing up on his timber ruined it.

## Hot Days Beneficial.

It is strange we never stop to realize that the hot days are good for us. They are 'tho', just as they are good for crops. Nature sends the hot days to give us a good "sweating"—if the use of the vulgar word is permissible for in this way it eliminates some of the poisons from our systems. If we would get out of doors, instead of sitting in the shady nooks, and take two or three hours in the open air with the "boiling sun" boiling us right we would feel lots better, and be lots better.

This is a correct theory, and is the theory that prompted the invention of the hot-air treatments I am giving with such success in my practice. When used in connection with Osteopathy it is a specific for the ailments that give us Paducahans the most trouble, malaria, chills and fever and biliousness, and I can in just a few minutes show anyone suffering of these ailments why they yield so readily to the treatment. I can refer you to people you know who will attest to my statements.

If you feel drowsy, and tired; feel like you had a taut band around your head which was being drawn closer all the time; if you are suffering of indigestion or any form, a course of Osteopathic and dry hot-air treatments will bring a quick cure, and do so without the aid of anything but aids to Nature.

My office hours are from 9 to 12 and from 2 to 5. Dr. G. B. Froage, 518 Broadway, Phone 1407.

HIS SECOND TIME  
DRAWS THE LIMIT

Judge Puryear Discourages  
Return to Police Court.

Druggists Fined on Charge of Sunday  
Selling—Green Goods  
Cases Are Continued.

## HUNCHBACK IS HEAVILY FINED

Police Judge E. H. Puryear held a lengthy session of police court this morning and had his first "second appearance" case to decide.

Will Hornsby, Arch Bland and Warren Hill, colored, were charged with being drunk and disorderly. They admitted being drunk and when Hornsby was sent to the stand Judge Puryear asked him if he had not been there before.

"Yas sah," he admitted, grinning from ear to ear.

"What were you here for?" the court inquired.

"Fo' slappin' a niggah woman."

"Did you slap her?"

"Reckon I did sah; you fined me fo' hit."

"This is the second time you have been before me, and I warned you not to come back. Fifty dollars and costs against you."

Bland had been up before and was given the same dose but as it was Hill's first offense, and he seemed to have fallen into bad company, the court dismissed him.

## His Satanic Majesty Fined.

Rollie Head, the four foot dwarf who claims Nashville his home and who declared to Special Policeman Patillo Kirk, of the Illinois Central force, when arrested that he was the Devil and came from where they "burn 'em" was fined \$25 and costs in police court this morning for disorderly conduct. Head claimed that he was weak and half-starved and was given extra rations at the city jail. He carried with him a bottle of chloroform with a nipple on the end. He stated he did this to "keep himself up."

## Sunday Violation Cases.

James P. Sleeth, Roy S. Ballowe, Charles O. Ripley, L. H. and Phil Stephon, druggists, were each fined \$25 and costs for selling liquor on the Sabbath. The case was tried Saturday but the opinion of the court held up pending his investigation of the statutes. Judge Puryear wanted to see if he could legally hold the proprietor for the act of his clerk. It is understood that two of the defendants will appeal.

## House-Breaker Waives Examination.

Will Tucker, colored, was presented for house-breaking. He was accused of entering the residence of Mr. C. H. Chamblin and stealing a pistol and coat and was caught later with the goods on him. He waived examination and was held over.

## Green Goods Cases Go Over.

The case against Thomas Warren and Thomas Franklin for the alleged swindling of Frank and Lafayette Robinson out of \$470 went over again on account of the absence of witnesses.

Other cases: Henry Hardy, colored, drunk and disorderly, \$50 and costs; W. C. Reynolds, carrying a pistol and brass knuckles, \$25 and costs and ten days in jail; Drew Starrett and Bob Jenkins, breach of peace, continued; Dee Jackson, breach of peace, continued; Tully Livery company, breach of ordinance left open; Frank Blanchard, petty larceny, continued.

## PLEASANT PARTY.

Twenty-five Enjoy Hospitality of Mr. J. R. Thompson.

Mr. J. R. Thompson, of the county, entertained twenty-five friends at dinner at his pleasant country home yesterday. Included in the party were County Judge Lightfoot and Bert Johnson, county road supervisor. Barbecued meat and all the delicacies of the season were served to the guests, and the afternoon was idled away in the shade.

## Throws Over Cargo.

New Orleans, August 6.—The breakdown at sea of the Norwegian steamship Venus, bound from Bocas del Toro, Panama, to New Orleans, was reported today when the steamer Preston arrived. The Venus' boilers began to leak, and after having drifted at sea for 36 hours, she threw overboard her banana cargo and made Port Limon under temporary repairs.

## Fall River Boat Disabled.

New London, Conn., Aug. 6.—The Fall River Line steamer Puritan from New York to Fall River broke her shaft off Gull Island early this morning and whistled for assistance. She was towed in here and the passengers taken aboard a special train to their destination.

JOY OF SALVATION  
TOPIC OF SERMON

Rev. B. P. Fullerton Preaches  
to Presbyterians.

Presiding Elder Fills Pulpit at the  
Broadway Methodist Church at  
Both Services.

## REVIVAL COMES TO A CLOSE.

"The Joy of Salvation" was the theme of the discourse delivered yesterday morning by the Rev. B. P. Fullerton, of St. Louis, at the Presbyterian church, Sixth street and Kentucky avenue. The Rev. Mr. Fullerton, who is field secretary of the Presbyterian board of home missions, for the district formerly covered by the Cumberland church, is a pleasing speaker of sympathetic presence and he presents the gospel in a way that makes it a living, attractive force. His special plea was for Christians to live their religion; to be happy in it; to seek the "Joy of Salvation." His message was one of optimism, and his truths were irresistible. The Rev. B. P. Fullerton is one of the best preachers heard in Paducah in a long time.

After the morning service the minister held a fifteen minute conference with the members of the church, concerning a pastor for this charge. At night he spoke on the union of the Cumberland and the General Presbyterian church, which the organization in Paducah has decided to join.

## Presiding Elder Preaches.

Presiding Elder J. W. Blackard conducted the services at the Broadway Methodist church yesterday in the absence of the pastor, the Rev. T. J. Newell, who is out of the city, visiting Methodist colleges of the Memphis conference. The topic of his morning discourse was "A visitor of God," and of his evening sermon, "Gathering Up the Fragments." Large congregations were present at each service. Communion was held after the morning sermon.

## Seeking New Pastor.

The committee appointed by the of flocks of the First Christian church have not selected any pastor as yet although they are corresponding with several. Regular services have not been held at this church since the pastor, the Rev. W. H. Pinkerton, resigned several months ago. A regular pastor will probably be seen in the pulpit soon, however, as the committee has been instructed to call a pastor at once.

## Communion Service.

Services were conducted at the Trimble street Methodist church yesterday morning and evening, by the pastor the Rev. W. W. Armstrong. At the morning service communion was observed. In the evening the sermon was on "Church and Money." Despite the warm day large congregations were present.

## TO KILL EMMANUEL

It Is Believed This Anarchist Was  
Going to Italy.

New York, August 6.—A grip sack loaded with dynamite and 42-calibre cartridges constituted the baggage of Gracemo Tanalare, who had engaged passage on the Cretic, which sailed today from Hoboken to Genoa. Tanalare was not allowed to sail and the Hoboken police are of the opinion that he is an anarchist that contemplated the assassination of the King of Italy.

## JUST UNDER AGE.

But in Few Weeks Luby Washington  
Must Behave Himself.

A family bible was the star witness in the case against Luby Washington, colored, this morning, and its testimony alone secured a dismissal in police court of the boy, who was charged with being an idler and disorderly. Policeman Aaron Hurley arrested Washington because he sat by a grocery too often talking and loitering about. The father testified that the boy was not 16 years old. The family Bible was produced and proved it. It will be only a few weeks before he will be old enough to be prosecuted in the police court and Judge Puryear gave him ample warning.

## WIFE OF LAWSON DEAD.

Succumbs to Heart Disease at Summer Home.

Selitate, Mass., August 6.—Mrs. Thomas W. Lawson, wife of the Boston financier, died at Dreamworld, Mr. Lawson's summer home here, today. Mrs. Lawson had been suffering from heart disease for several months.

The gauge registered a stage of 9.4 this morning, a fall of .6 in the last 48 hours. Weather clear and business at the wharf brisk. Excursions on the river have been few since the early summer. Sunday the Royal carried an excursion from Golconda to Metropolis. All the boats have special rates during the summer months, which may account for the lack of excursions.

Saturday night the City of Saltho arrived out of the Tennessee river on the return trip to St. Louis.

The Joe Fowler arrived from Evansville Sunday evening at 7 o'clock and left this morning at 11 o'clock for the same point.

The Dick Fowler had a large passenger list this morning on the regular trip to Cairo and way points. The Mattoon baseball club augmented the list.

The Savannah arrived in the harbor Sunday morning at 11 o'clock and left immediately after unloading freight for Metropolis. The Bettorf left at noon for Clarksville.

The Dunbar was placed on the dry docks this morning for repairs. The Bob Dudley will go in the Evansville trade of the John S. Hopkins when the river gets too low for that boat to run. The Henry Harley, now in the upper Cumberland river trade, will enter the trade of the Joe Fowler. The Dunbar will replace the Dick Fowler.

The Russell Lord left today for the White river after ties for the Ayer-Lord tie company.

The Jim T. Duffy arrived from the Cumberland river this morning with ties.

The Clyde will arrive out of the Tennessee river tonight and lie over until Wednesday evening before leaving on the return trip.

Lee Rhodes, first clerk on the Dick Fowler, left this morning on a 30 days' vacation in Virginia. Dick Wilcox, second clerk, will fill his position, and Joe Willis, of Metropolis, will assist as second clerk.

Capt. Oscar Barrett, of Cincinnati, Capt. H. A. Powell, of Cairo, and Capt. J. P. Brown, of Jopka, were on the wharf this morning. Capt. Barrett has a contract with the government to furnish stone for use in the Eades' jetties at New Orleans. The stone is quarried at Roseclaire on the upper Ohio.

Commodore Given Fowler went to Cairo this morning on business.

## MANY FIRE TRAPS ALONG BROADWAY

Is Comment of Chief Wood, of  
the Department.

Shacks in Rear of Buildings Should  
Be Destroyed and Stricter  
Laws Adopted.

### FIRE LIMIT EXTENDED WEST

Building laws that will adequately protect the business part of Paducah against danger from fire or collapse are urged by Fire Chief Wood, who has received copies of the building code adopted in a half dozen cities, to be submitted to a committee of the general council.

"At present we have no laws, except one establishing a fire limit," said the chief this morning, "and buildings are being erected according to any plan the architect, owner or contractor sees fit to prepare. Buildings are being erected that would not pass inspection. We should have certain rules, governing the size of the walls, the manner of construction and location of buildings, reasonable but strict, and the building inspector should have plenty of power."

"Then the fire limits should be extended, at least as far as Seventh street west, and really as far as Ninth street would be better. At present no wooden buildings may be erected between Clark and Monroe streets and the river and Fifth street. But back of all these brick and stone buildings on Broadway are innumerable little frame shacks that are a constant menace. We had a fire this morning in the rear of Whitehead's restaurant in a frame outhouse. It jeopardized the business part of the city. These buildings should be cleaned out. All the business section is full of firetraps."

**The Yellow Fever Germ**  
has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c. at McPherson's drug store.

**Harmony Revival Closed.**  
The Rev. J. D. Stewart, of Lone Oak, and Rev. E. H. Cunningham, of Paducah, have just concluded one of the most successful revivals, for its period, in the history of the country surrounding. Two weeks marked the series of this service, and though the influence of the sermons preached day and night by these servants of God, upwards of 50 souls were converted and 35 candidates for baptism were received.

**Frightfully Burned.**  
Chas. W. Moore, a machinist, of Ford City, Pa., had his hand frightfully burned in an electrical furnace. He applied Bucklen's Arnica Salve with the usual result: "a quick and perfect cure." Greatest healer on earth for Burns, Wounds, Sores, Eczema and Piles. 25c at McPherson's drug store.

**DON'T BE BLUE**  
And lose all interest when help is within reach. Herbine will make the liver perform its duties properly. J. B. Vaughn, Elba, Ala., writes: "Being a constant sufferer from constipation and a disordered liver, I have found Herbine to be the best medicine for these troubles on the market. I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by all druggists.

**WHY FRET AND WORRY**  
When your child has a severe cold. You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for Colds, Coughs, Whooping Cough and Bronchitis. Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup on my children for five years. Its results have been wonderful." Sold by all druggists.

**CHILDREN IN PAIN**  
Never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial.

"Just think, Anna, I found a letter in my husband's pocket."  
"Yes, and what was the tenor?"  
"Not a tenor at all, it was a ballet dancer!"—La Circularista.

## HELD AS BY VICE WAS SWITCHMAN

Caught Between Drawheads  
and "Pinched."

Was Coupling Cars and Engine  
Backed Unexpectedly—Flesh  
Torn From Sides.

### WAS CARRIED TO THE HOSPITAL

Switchman John E. George, of Adams and Fourth street, an employe of the Illinois Central but a few days, lies in the hospital on West Broadway seriously injured. He was caught between the drawheads of his engine and a caboose at 2:45 o'clock this morning in the shop yards while making a coupling. His right side was caught and two large holes torn in the flesh.

George was working on switch engine, No. 182, under Foreman Willett, and was preparing the drawheads for the coupling. The engine came back unexpectedly and George was "pinched." He was held as in a vice until the accident was discovered and the engine run ahead. His body then dropped and George was carried to the shops and later to the hospital where the wounds were dressed.

George worked for the Nashville, Chattanooga and St. Louis road in the local yards until three weeks ago when he resigned to go with the Illinois Central. He will recover, it is said.

**Luckiest Man in Arkansas.**  
"I am the luckiest man in Arkansas," writes H. L. Stanley of Bruno, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for Consumption, which I know from experience will cure consumption if taken in time. My wife improved with the first bottle and twelve bottles completed the cure." Cures the worst coughs and colds or money refunded. At McPherson's drug store. 50c and \$1.00. Trial bottle free.

## CHAPTER III.

OAKLEY took the satchel from General Cornish's hand as the latter stepped from his private car.

"You got my note, I see," he said. "I think I'll go to the hotel for the rest of the night."

He glanced back over his shoulder as he turned with Dan toward the bus which was waiting for them at the end of the platform.

"I guess no one else got off here. It's not much of a railroad center."

"No," agreed Oakley impartially; "there are towns where the traffic is heavier."

Arrived at the hotel, Oakley led the way upstairs to the general's room. It adjoined his own. Cornish paused on the threshold until he had lighted the gas.

"Light the other burner, will you?" he requested. "There, thanks, that's better."

He was a portly man of sixty, with a large head and heavy face. His father had been a Vermont farmer, a man of position and means according to the easy standard of his times. When the civil war broke out young Cornish, who was just commencing the practice of the law, had enlisted as a private in one of the first regiments raised by his state. Prior to this he had overflooded with fervid oratory and had tried hard to look like Daniel Webster, but a skirmish or two opened his eyes to the fact that the wearing of a war was a sober business and the polishing off of his sentences not nearly as important as the polishing off of the enemy. He was still willing to die for the Union if there was need of it, but while his life was spared it was well to get on. The numerical importance of number one was a belief too firmly implanted in his nature to be overthrown by any patriotic aberration.

His own merits, which he was among the first to recognize, and the solid backing his father was able to give won him promotion. He had risen to the command of a regiment, and when the war ended was brevetted a brigadier general of volunteers along with a score of other anxious warriors who wished to carry the title of general back into civil life, for he was an amiable sort of a Shylock, who seldom overlooked his pound of flesh, and he usually got all and a little more than was coming to him.

After the war he married and went west, where he resumed the practice of his profession, but he soon abandoned it for a commercial career. It was not long until he was ranked as one of the rich men of his state. Then he turned his attention to politics. He was twice elected to congress and served one term as governor. One of his daughters had married an Italian prince, a meek, prosaic little creature exactly five feet three inches tall. Another was engaged to an English earl, whose debts were a remarkable achievement for so young a man. His wife now divided her time between Paris and London. She didn't think much of New York, which had thought even less of her. He managed to see her once or twice a year. Any oftener would have been superfluous.

There were moments, however, when he felt his life to be wholly unsatisfactory. He derived very little pleasure from all the luxury that had accumulated about him and which he accepted with a curious placid indifference. He would have liked the affection of his children, to have had them at home, and there was a remote period in his past when his wife had inspired him with a sentiment at which he could only wonder. He held it against her that she had not understood.

He hunched down solidly into the chair Oakley placed for him. "I hope you are comfortable here," he said kindly.

"Oh, yes." He still stood. "Sit down," said Cornish. "I don't, as a rule, believe in staying up after midnight to talk business, but I must start east tomorrow."

He slipped out of his chair and began to pace the floor, with his hands thrust deep in his trousers pockets. "I want to talk over the situation here. I don't see that the road is ever going to make a dollar. I've an opportunity to sell it to the M. & W. Of course this is extremely confidential. It must not go any further. I am told they will discontinue it beyond this point, and of course they will either move the shops away or close them." He paused in his rapid walk. "It's too bad I never paid. It was the first thing I did when I came west. I thought it a pretty big thing then. I have always hoped it would justify my judgment, and it promised to for awhile until the lumber interests played out. Now, what do you advise, Oakley? I want to get your ideas. You understand if I sell I won't lose much. The price offered will just about meet the mortgage I hold, but I guess the stockholders will come out at the little end of the horn."

Oakley understood exactly what was ahead of the stockholders if the road changed hands. Perhaps his face showed that he was thinking of this, for the general observed charitably:

"It's unfortunate, but you can't mix sentiment in a transaction of this sort. I'd like to see them all get their money back, and more too."

His mental attitude toward the world was one of generous liberality, but he had such excellent control over his impulses that, while he always seemed about to embark in some large

philanthropy, he had never been known to take even the first step in that direction. In short, he was hard and unemotional, but with a deceptive, unswerving kindness of manner which, while it had probably never involved a dollar of his riches, had at diverse times cost the unwary and the indiscreet much money.

"I am sure the road could be put on a paying basis," said Oakley. "Certain quite possible economies would do that. Of course we can't create business; there is just so much of it, and we get it all as it is. But the shops might be made very profitable. I have secured a good deal of work for them and I shall secure more. I had intended to propose a number of reforms, but if you are going to sell, why, there's no use of going into the matter." He paused.

The general meditated in silence for a moment.

"I'd hate to sacrifice my interests if I thought you could even make the road pay expenses. Now, just what do you intend to do?"

"I'll get my order book and show you what's been done for the shops," said Oakley, rising with alacrity. "I have figured out the changes, too, and you can see at a glance just what I propose doing."

The road and the shops employed some 500 men, most of whom had their homes in Antioch. Oakley knew that if the property was sold it would practically wipe the town out of existence. The situation was full of interest for him. If Cornish approved and told him to go ahead with his reforms, it would be an opportunity such as he had never known.

He went into his own room, which opened off Cornish's, and got his order book and table of figures, which he had carried up from the office that afternoon.

He had taken a great deal of pains with his figures, and they seemed to satisfy Cornish that the road if properly managed was not such a hopeless proposition after all. Something might be done with it.

Oakley rose in his good esteem. He had liked him, and he was justifying his good opinion. He beamed benevolently on the young man and thawed out of his habitual reserve into a genial, ponderous frankness.

"You have done well," he said, glancing through the order book, with evident satisfaction.

"Of course," explained Oakley. "I am going to make a cut in wages this spring if you agree to it, but I haven't the figures for this yet." The general nodded. He approved of cuts on principle.

"That's always a wise move," he said. "Will they stand it?"

"They'll have to," And Oakley laughed rather perversely. He appreciated that his reforms were likely to make him very unpopular in Antioch. "They shouldn't object. If the road changes hands it will kill their town."

"I suppose so," agreed Cornish indifferently.

"And half a loaf is lots better than no bread," added Oakley. Again the general nodded his approval.

"What sort of shape is the shop in?" he asked after a moment's silence.

"Very good on the whole."

"I am glad to hear you say so. I spent over a hundred thousand dollars on the plant originally."

"Of course the equipment can hardly be called modern, but it will do for the sort of work for which I am bidding," Oakley explained.

"Well, it will be an interesting problem for a young man, Oakley. If you pull the property up it will be greatly to your credit. I was going to offer you another position, but we will let that go over for the present. I am very much pleased, though, with all you have done; very much pleased indeed. I go abroad in about two weeks. My youngest daughter is to be married in London to the Earl of Manchester." The title rolled glibly from the great man's lips. "So you'll have the fight, if it is a fight, all to yourself. I'll see that Holloway does what you say. He's the only one you'll have to look to in my absence, but you won't be able to count on him for anything. He gets limp in a crisis. Just don't make the mistake of asking his advice."

"I'd rather have no advice," interrupted Dan hastily, "unless it's yours," he added.

"I'll see that you are not bothered. You are the sort of fellow who will do better with a free hand, and that is what I intend you shall have."

"Thank you," said Oakley, his heart warming with the other's praise.

"I shall be back in three months, and then if your schemes have worked out as all as we expect, why, we can consider putting the property in better shape." (A part of Oakley's plan.)

"As you say, it's gone down so there won't be much but the right of way presently."

"I hope that eventually there'll be profits," said Oakley, whose mind was beginning to reach out into the future.

"I guess the stockholders will drop dead if we ever earn a dividend. That's the last thing they are looking forward to," remarked Cornish dryly. "Will you leave a 6.30 call at the office for me? I forgot, and I must take the first train. Good night."

## AFTER NUDE IN ART.

Anthony Comstock Thinks Prospectus of Institution Immoral.

NEW YORK, Aug. 6.—Upon a warrant sworn out by Anthony Comstock, secretary of the Society for the Suppression of Vice, the studios of the Art Students' League, one of the most noted art schools in America, were today searched, and the bookkeeper, Miss Anna Robinson, was placed under arrest. It was charged by agents of the society that the reproduction of figures in the nude contained in the full catalogue which the league was about to issue were of an immoral character. A patrol wagon load of the catalogues was seized and taken to the police court as evidence. Magistrate Mayo adjourned for a further hearing on August 7 the charges against Miss Robinson, the only person placed under arrest. The pamphlet seized by the society's agents is the one issued regularly each fall to prospective students, and shows pictures of the work turned out by the students of the school. The issue is styled "The American Student of Art," and specimens pictured are such as are seen in any art studio museum. In the book there are but two pages devoted to the nude. The Art Students' League maintains in 215 West Fifty-seventh street studios and apartments for explanations in fine arts. No question has ever been raised before as to the character of the pamphlets issued or of the art exhibited.

## LAST WEEK OF STOCK.

Casino Company Disbands Saturday Night and Opera Follows.

This is the last week of melodrama at the Wallace park Casino, as Manager William Malone's players leave to fill winter engagements. On Monday the Beggar Prince Opera company opens, and will present four different operas a week during the engagement. This attraction will be followed by a season of vaudeville. The moving pictures will continue to be a feature at the park, and some pictures of the Frisco disaster will shortly be produced.

Melodrama is the bill at the Casino this week, and the popularity of the show last week will be duplicated.

One of the items that went to make this season so popular was the excellent settings of the pieces. Manager Malone, who is a past-master at stage dressing, has used the limited equipment of the summer to the best advantage.

Members of the stock company, as well as patrons of the house, were sorry to see G. W. Harrington, the popular comedian, leave. After playing the part of "Rastus" in the "Heart of Kentucky," Saturday night he started for his home in Toledo, O., where he visits this week, and then goes to New York to rehearse one of the principal parts in Whitney's "My Wife's Family."

## NEWS NOTES FROM SUNDAY PAPERS.

The rectifiers of Louisville say they will refuse to pay taxes under the cent and a quarter a gallon tax on any whisky rectified from any but single-stamp spirits. The auditor will refuse to issue licenses unless the tax is paid on all rectified goods, and the court of appeals will probably be called upon to construe the law.

Chairman Lewis McQuown issued a call for a meeting of the Democratic state executive committee in Frankfort August 11, to consider the report of the sub-committee regarding the details and expense of the state primary.

A meeting will be held in New York November 15 to organize a national society, the purposes of which are to obtain and disseminate information of practices and conditions that are dangerous to the public health and morals.

The condition of Judge William C. Hawkins, Jr., who was assaulted and robbed by highwaymen in Pittsburg Wednesday night, was greatly improved yesterday and no anxiety is now felt for his recovery.

The annual report of Chief Wilkie

of the secret service division of the treasury department, shows that during the fiscal year ended June 30 1906, there were 356 arrests made by officers of that service.

The damage wrought at Hamburg Pa., by a cloudburst, is fully as great as at first reported. Sixty dwellings were damaged and ten buildings were washed away. The loss is estimated at \$100,000.

President Roosevelt has written a letter endorsing the effort of the Audubon society to prevent the sale and use of white heron plumes, commonly known as "aigrettes."

Chairman Josiah Quincy, of the Massachusetts Democratic state committee, says that the sentiment of the state and local committees is overwhelmingly for Bryan.

Tabulation of the official returns of Thursday's election in Nashville shows that Johns, the independent candidate for sheriff, was elected by a majority of seven votes.

Jake Holtman, the race horse starter, is the defendant in a suit for divorce and alimony filed by Mrs. Louise Bullock Holtman. She alleges that he

has another wife.
